

Fusion Custom Mixers

Custom Solutions for Specific Applications

MAGNETIC DRIVE MIXER

**DUAL CONCENTRIC
SHAFT MIXER**

When you need custom engineered equipment for your specific process, you want Fusion. Offerings span a wide range from highly customized mixers to our standard mixers that have been modified and accessorized. Properly sized valves, controls, and fittings are important to ensure optimal performance, safety, efficiency, and longevity of your equipment.

With our application and design expertise, extensive network of suppliers, 3D modeling, and numerous other custom fabrication capabilities, Fusion is prepared to provide unique solutions for your custom mixing needs. Your expectations will be exceeded by our ability to offer the highest level of customer-specified options available in the mixer market. Let us construct the right equipment and accessories for your project!

DESIGN INTENT

We realize that every application is different. We also realize that not all applications can be handled with standard mixers. This is why we are pleased to offer customized solutions for those who have specific process needs.
